History of

JEWISH CEMETERY & BURIAL ASSOCIATION

OF GREATER PITTSBURGH
RESTORATION ♦ PRESERVATION ♦ CONTINUITY

The JCBA was created in 1992 with the merger of the United Jewish Federation Cemetery Association and the Hebrew Burial Association of Pittsburgh (originally called Chesed Shel Emeth of Pittsburg and incorporated on June 4, 1910).

Historically both of these organizations were committed to maintaining Jewish cemeteries in the Greater Pittsburgh area and guarding against the real threat of deterioration and neglect. Cemeteries of congregations and benevolent organizations (the Landsmenshaften) no longer in operation have created the increasing need for upkeep and maintenance. The association continues that commitment and to the growing need for a coordinated effort to preserve and maintain Jewish cemeteries in the region.

Some congregations with declining membership are especially in need of a plan for preservation and maintenance of their cemeteries. The promise we make to those who came before us requires adequate resources to maintain their final resting places.

The original mission of the Hebrew Burial Association continues with the JCBA in providing Jewish burials to the truly needy.
